1. Yeong Guan Overview

2. 2022 Q1 Financial Highlights

3. Market Trends

4. Development Strategy

5. Detailed Financial Figures

Yeong Guan Overview

BUILDING FOUNDATIONS FOR RENEWABLE ENERGY

Safely and Responsibly

We are a 1st source supplier of ductile iron castings to Tier 1 global equipment manufacturers in the renewable energy, injection molding machine and industrial machinery industries.

Yeong Guan Overview

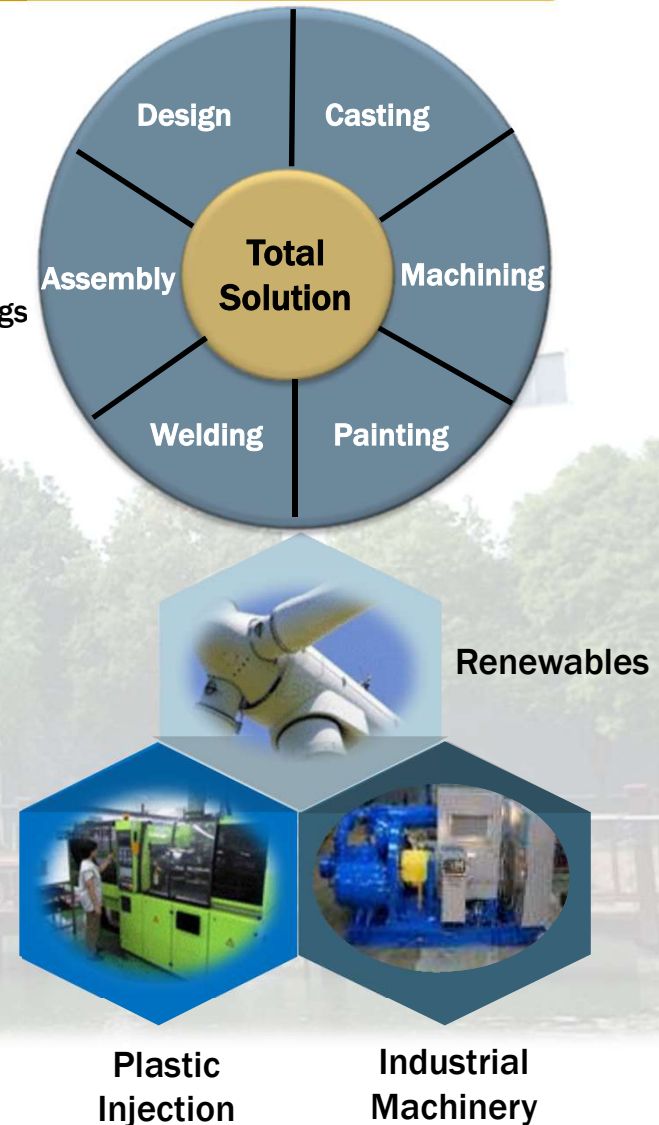

✦ Nearly half a century in the foundry industry

- Founded in Taiwan in 1971, investing in China since 1992. Now with 6 factories.
- Around 2,500 employees
- 2021 Revenue reached NT\$ 8.95 billion, with over 194,000 tons of castings shipped
- Annual capacity of 210,000 tons

✦ Lead the Industry in Environment, Health and Safety (EHS) Best Practices

- Several of our plants have earned recognition from local regulatory authorities.
- EHS qualification is required to gain long-term order flows from Tier 1 MNCs.
- The installation of high standard, environmental friendly equipment enhances our cost-competitiveness

✦ Optimizing Lean Production: Improve efficiency

2022 Q2 Updates

Shanghai Lockdown Lifted

Mainland China customer's
order and delivery returning
to normal

Export volume from
Shanghai Port increasing

Quarterly Output Increase

June shipment expected to
Return to normal

2022 Q2 shipment to
increase around 20% from
Q1 levels

New Business Development

Exploring Higher-Margin
markets

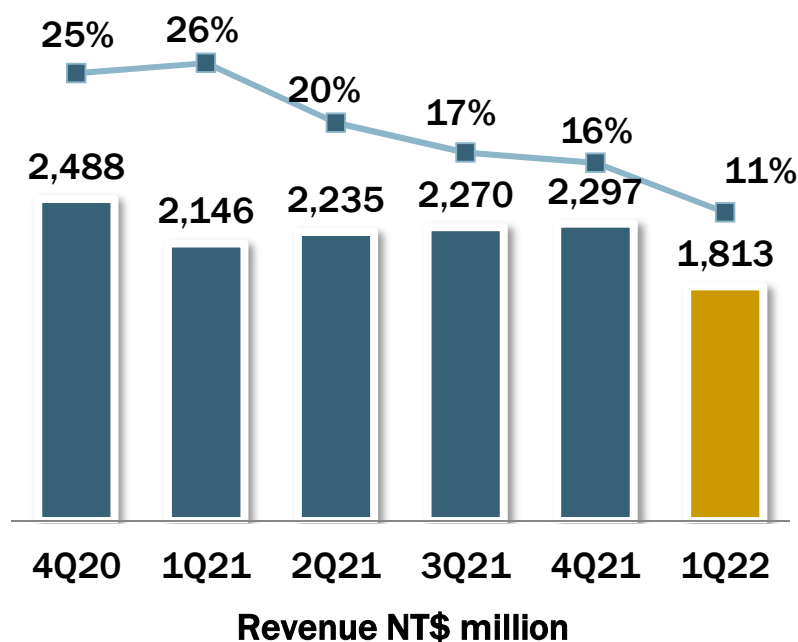

In 2022 so far, several
new customers have been
developed

2022 Q1 Financial Highlights

2022 Q1 Revenue & EPS

- ✧ In 2022 Q1, Chinese New Years and Shanghai Lockdowns impacted shipment volume
- ✧ Pig Iron/Steel Scrap market pricing rose after war in Ukraine broke out in late February.

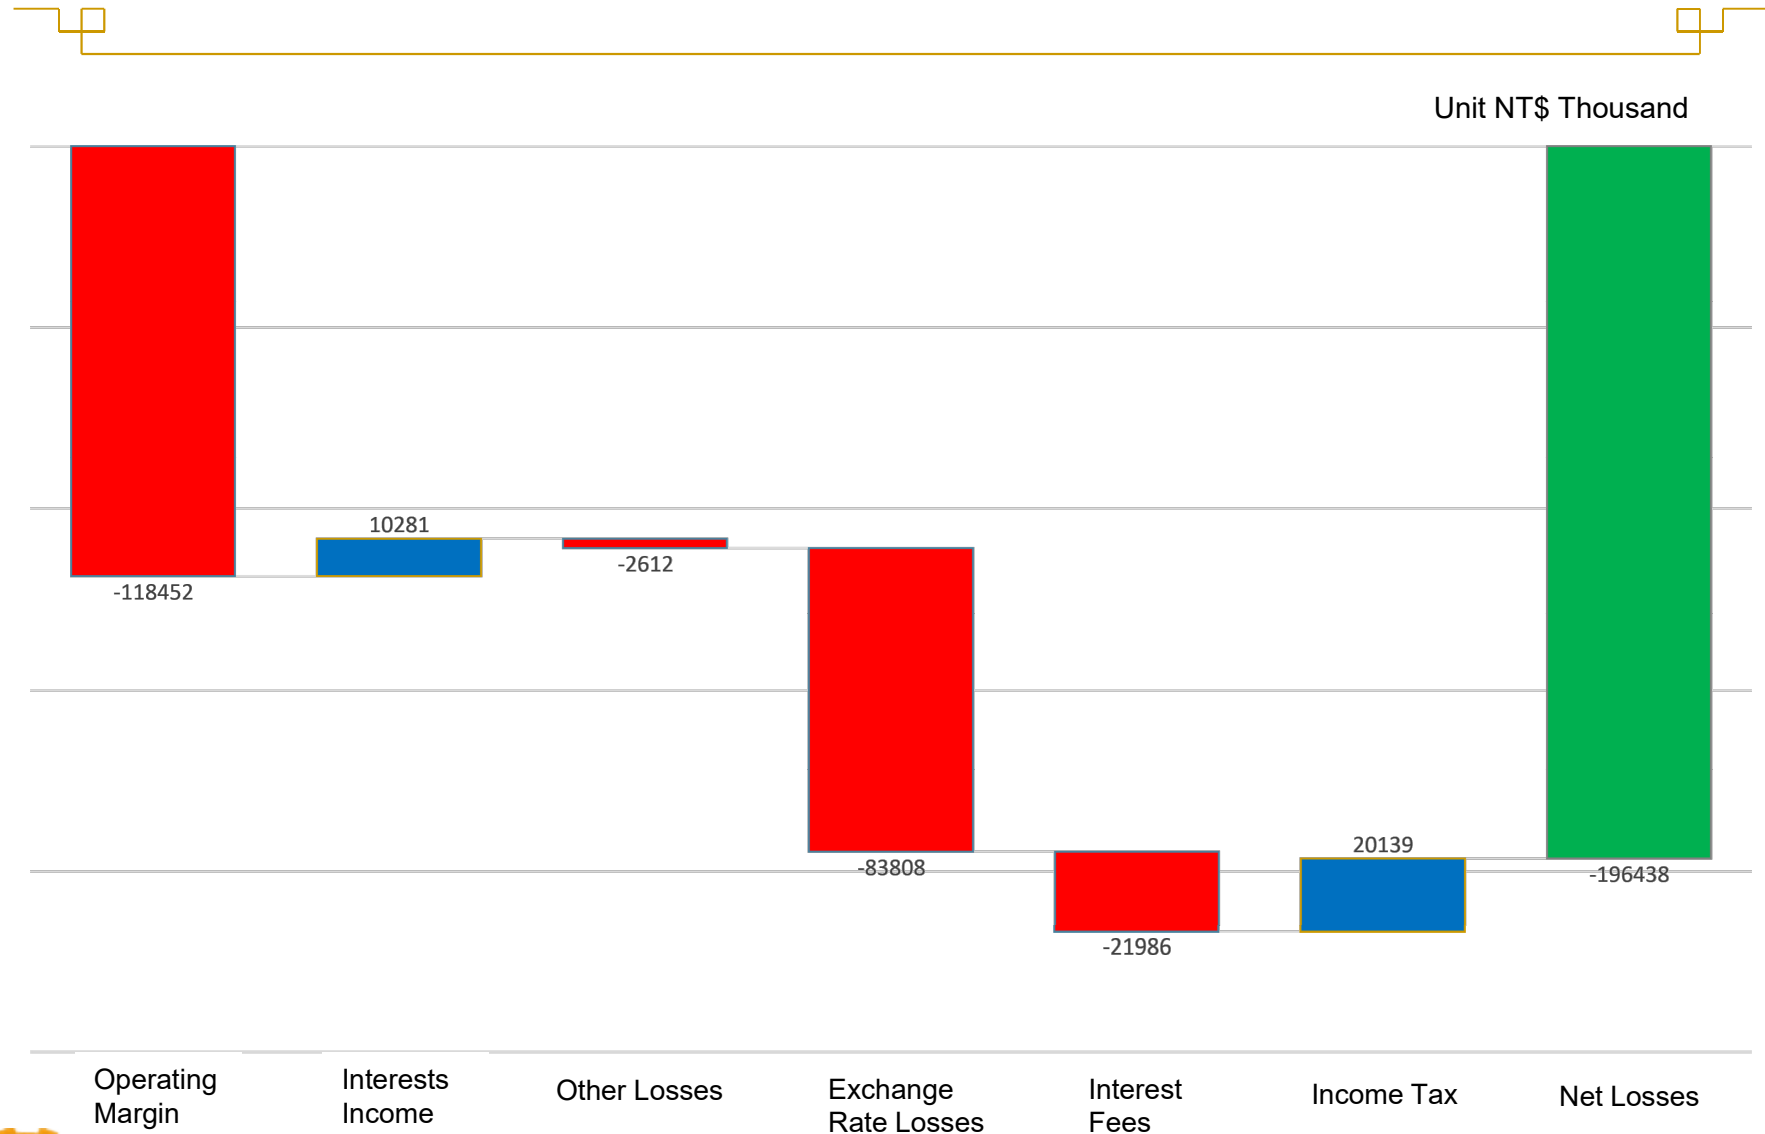

Gross Margin

Return on Equity

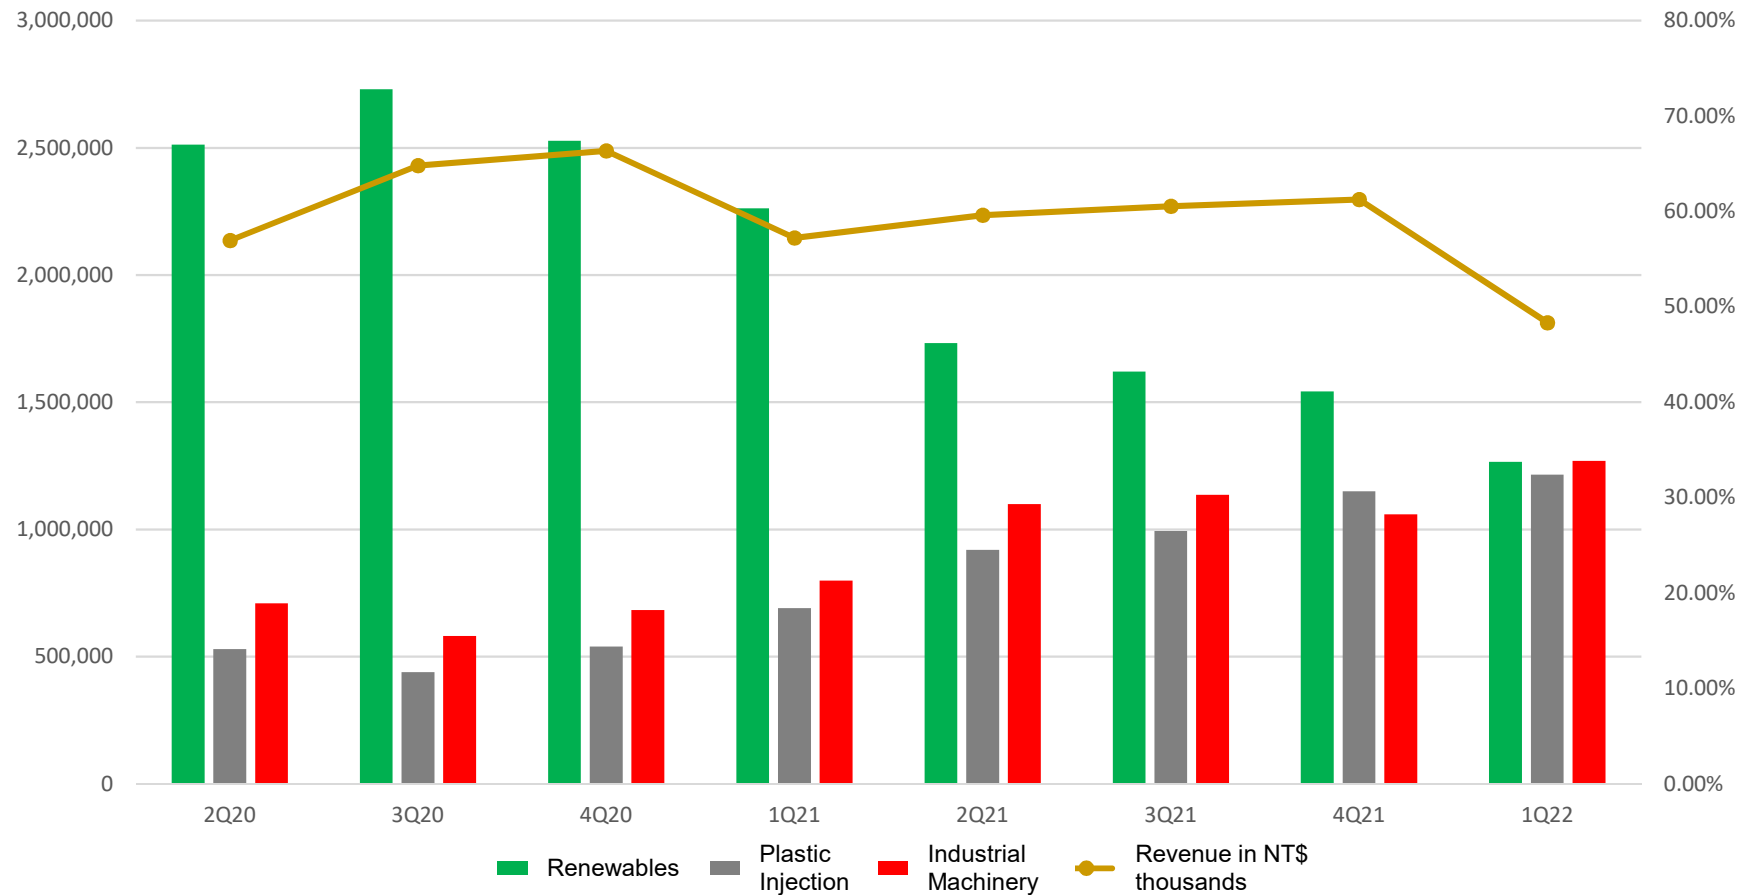

2022 Q1 Net Losses Analysis

Even Growth amongst Main Market Sectors

- ✦ 2022 Q1 Revenue composition: Renewables 33.8%, Plastic Injection 32.4%, Industrial Machinery 33.8%
- ✦ Plastic Injection Molding/Industrial Machineries demand grows, while Renewables demand slows.

2022 Q1 Income Statement

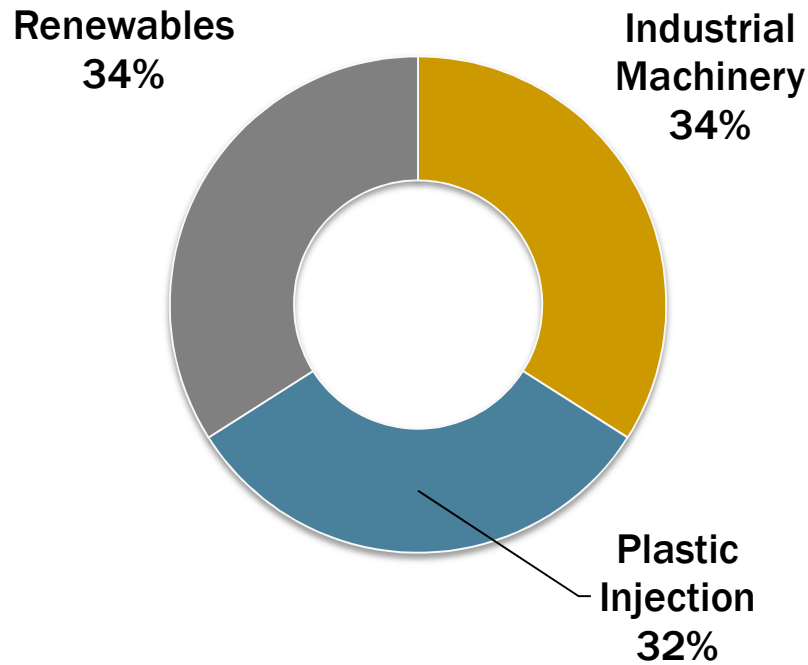

Unit: Thousand NTD	1Q 2022	4Q 2021	QoQ	1Q 2021	YoY
Revenue	1,813,099	2,296,281	-21.0%	2,145,708	-15.5%

Revenue By Application (%)

Revenue by Currency (%)

Market Trends

Wind Energy Market Trends

- ✦ According to the renewables report released by the IEA in May 2022: Mainland China, Europe, the United States, and India are the top four green energy investment regions.
- ✦ Wind Energy demand will grow year by year in Mainland China, Europe and India

Renewable capacity additions in China, European Union, the US and India, 2019-2023

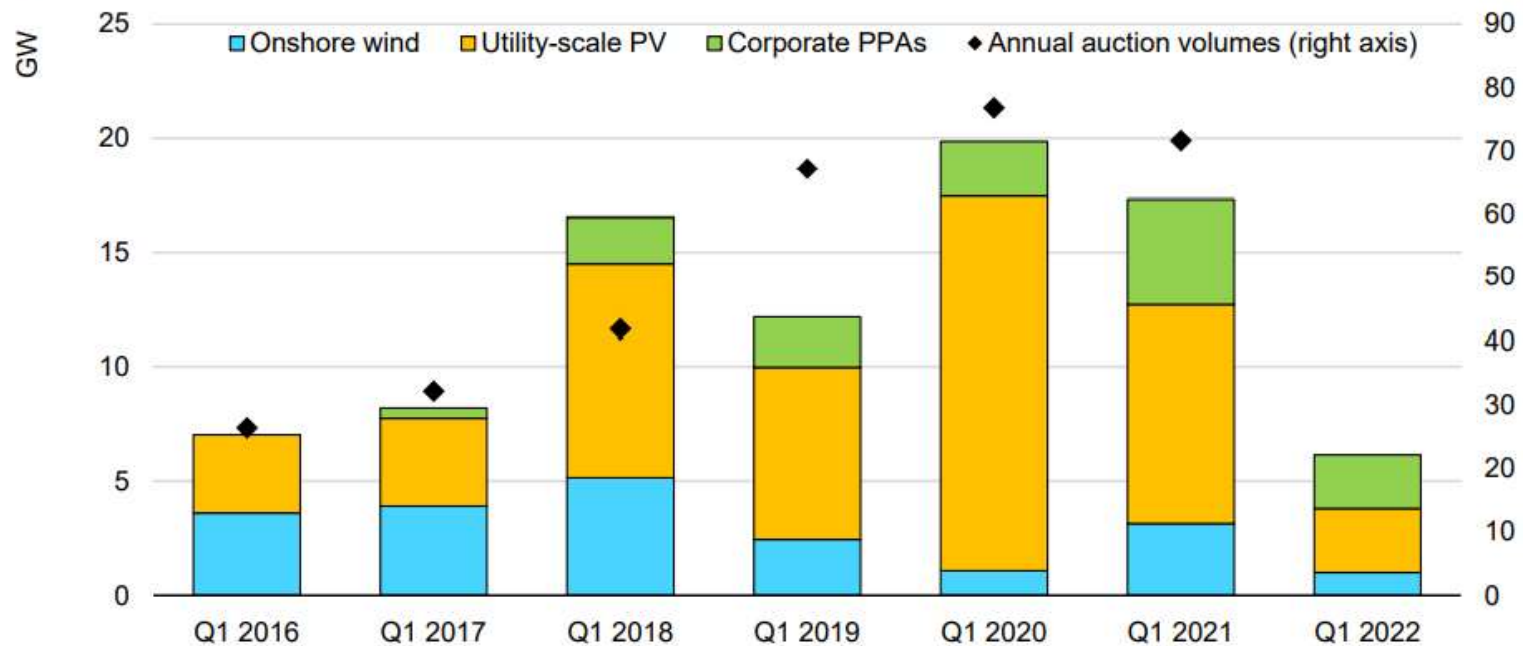

IEA. All rights reserved.

Wind Energy Market Trends

- ✦ Global auctions for renewables in the first quarter of 2022 were at their lowest level since 2016, as higher commodity prices in the wake of the Ukrainian-Russian war led to higher investment costs for wind and solar PV.

Utility-scale solar PV and onshore wind auction capacity and corporate PPAs for first quarters, 2016 to 2022

Wind Energy Market Trends

- ✦ Mainland China's "14th Five-Year" Renewable Development Plan was recently released: by 2025, renewable energy power generation will account for more than 50% of the electricity consumption in mainland China.
- ✦ Li Chuangjun, Director of the New Energy Department of the China Energy Administration: In 2020, China's renewable energy power generation will be 2.2 trillion kWh, from 2.2 trillion (kWh) to 3.3 trillion (kWh), an increase of exactly 50%.

Wind Energy Market Trends

- ✦ Germany, Belgium, the Netherlands and Denmark have pledged to build at least 150 GW of offshore wind capacity in the North Sea by 2050, creating a "green power plant" for Europe.
- ✦ The European Commission aims to increase offshore wind power to 300 GW by 2050, up from the roughly 16 GW currently installed.
- ✦ EU seeks to reduce its energy dependence on Russia, forecasts 23GW of wind power to be added every year between 2022 and 2026
- ✦ The European Commission also unveiled a 210 billion euro plan to end reliance on Russian fossil fuels by 2027

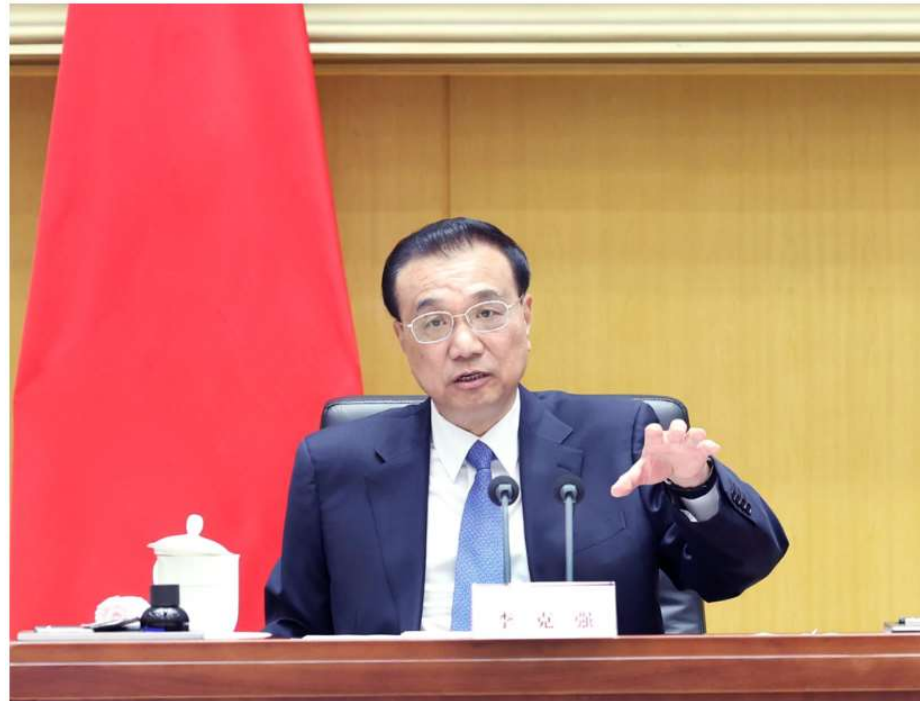

German Chancellor Olaf Schultz and European Commission President Ursula von der Leyen talk to each other at the North Sea Offshore Wind Summit in Esbjerg, Denmark, on May 18, 2022.

Bo Amstrup/Ritzau Scanpix/via REUTERS

Plastic Injection/Industrial Machinery Market Trends

- ✧ On May 25, the Chinese State Council held a "National Video and Telephone Conference on Stabilizing the Economic Market"
- ✧ Increasing tax rebates by more than 1.4 trillion yuan; relax restrictions on car purchases and reduce the purchase tax of some passenger vehicles by 60 billion yuan; Double the amount of support tools and support ratio for Inclusive Small and Micro Loans in 2022
- ✧ Social security premiums exemptions will be extended to the end of 2022 for financially stressed industries, including small, medium and micro enterprises, individual industrial and commercial households, and catering.
- ✧ RMB 300 Billion of Railway Construction Bond will be issued.

Mr. Li, Ke-Qiang by Xin Hua News Agency

Plastic Injection/Industrial Machinery Market Trends

- ✦ The German Mechanical Engineering Association (VDMA) predicts that German industrial machinery production will only grow by 1% this year (6.4% in 2021)
- ✦ Reasons for orders decline: the slowdown of economic growth in mainland China, global supply chain disruptions, and the Ukrainian-Russian war (75% of German machinery manufacturers plan to reduce their participation or withdraw from the Russian market in the next six months)

Development Strategy

Taichung Factory Investment

- ✦ **Timeline:** Construction started in 2020, targeting trial production by Q4 2022.
- ✦ **Capacity:** 80,000-100,000 tons/year.
- ✦ **25K by 2023, 50K by 2024, 75K by 2025**
- ✦ **Advantages:**
 - Customers nearby (Siemens/Vestas)
 - Localization requirements
 - Proximity to harbor
 - Government incentives
- ✦ **CAPEX**
 - Phase 1: NT\$ 8.3bn to reach 45k output

Steel Structure installations near completion. The transportation of production equipment has been delayed due to COVID Lockdowns in mainland China.

Plans to enter production in Q4 2022

Thailand Factory Investment

- ✦ Construction starts in 2022. Production to begin in 2024.
- ✦ Phase 1: 60,000 tons/year capacity. Onshore Wind, Plastic/Industrial machineries.
- ✦ Advantages:
 - 968,000 m² site with industrial development potential.
 - 8 years tax-free and 5 years halved tax incentives.
 - EIA approved, can be developed in stages
- ✦ CAPEX: estimated NT\$ 2.6 billion for Phase 1

Factory design being finalized.
Construction scheduled for H2 2022.

Outlook for 2022 and Beyond

✦ Near Term (1-2 years)

- Develop new customers/meet increased wind demand from China.
- For 2022, we expect steady demand from all other sectors, translating to 195,000-200,000 tons output.
- Taichung factory for wind castings: production in 2022

✦ Mid Term (3-5 years)

- Thailand plant: Construction starts in 2022. Production begins in 2024.
- Capacity reaches 250,000 tons/yr.

✦ Long Term (5-10 years)

- Sustainable operations & succession planning
- Building upon ESG framework
- Corporate social responsibility
- Capacity reaches 300,000 tons/yr

Estimated Shipments
(thousand tons)
